## SUMMARY

I am a Software Engineering student at African Leadership University with a strong interest in technology and data. Curious, motivated, and detail-oriented, I enjoy solving complex problems with creativity and logic. I work well in teams and enjoy collaborating on projects. My goal is to responsibly apply my technology skills to positively impact society and the environment.

## EDUCATIONAL BACKGROUND

**African Leadership University –** Kigali, Rwanda **Sep 2022 – Present**
Bachelor of Science in Software Engineering

*Relevant Coursework: Learning Processes, Web Infrastructure, Reflective Thinking, Self Leadership and Team Dynamics, Responsible Enterprise, Communication for Impact, Introduction to Software Engineering, Mobile Application Development, Advanced Front-end Web Development, Advanced Backend Development, React Development, Advanced DevOps, Ethics in Software Engineering, Mission Capstone.*

## PROFESSIONAL WORK EXPERIENCE

**Capstone Research Project** **May 2025 – Aug 2025**
**African Leadership University –** Kigali, Rwanda

- *Researched spatial bias in climate-related geospatial datasets to identify areas with incomplete or uneven data coverage.*
- *Developed Fairify, a platform that visualizes data gaps and highlights underrepresented communities; presentation link.*
- *Applied geospatial analysis, data visualization, and user-centered design methods to produce actionable insights for equitable urban planning and climate resilience.*

**Extern** **Feb 2025 – Apr 2025**
**National Geographic Society & the Nature Conservancy –** Remote

- *Researched the impact of uncontrolled urbanization on natural drainage systems and flood risks in Douala, Cameroon.*
- *Created a story map using geospatial analysis and data visualization to highlight spatial bias.*
- *Demonstrated how vulnerable low-lying communities are disproportionately affected.*
- *Developed insights to support equitable urban planning, and climate resilience strategies.*

**IR Manager** **Oct 2024 – Present**
**AIESEC in Kigali –** Kigali, Rwanda

- *Manage international partnerships by coordinating with AIESEC entities across multiple countries to facilitate exchange programs and global collaborations.*
- *Build and maintain networks to enhance organizational impact and align with AIESEC's leadership mission.*
- *Strengthen cross-cultural relations and oversee communication strategies.*
- *Support youth development initiatives through international opportunities.*

**Graphics & Ux Design Intern** **Sep 2024 – Dec 2024**
**ThinkGreen Afrika –** Kigali, Rwanda

- *Conducted user research to identify best practices and user needs for designing a course learning platform addressing Environmental Sustainability*
- *Created wireframes and prototypes for the platform aiming to train environment advocates.*
- *Tested and refined user interfaces based on feedback to ensure accessibility and usability across diverse audiences.*

## EXTRACURRICULAR ACTIVITIES

**Participant,** iSTAR Hackathon **Nov 2024**

I joined a two-day event on space tech for climate action, where my team built a flood monitoring project using satellite data. I researched flood data, explored legal angles, helped create the pitch deck, and developed a business plan with funding and partnership strategies.

**Bridge Program,** Carnegie Mellon University Africa **Sep 2024 – Nov 2024**

A six-week program to bridge the gap between undergraduate and graduate studies for final-year undergraduate students. The activities include immersion in graduate life, sessions on the academic skills required for the successful application and navigation of graduate studies, and the development of an IOT system project.

**Project Manager,** CultureCraft Hub **Jan 2024 – Apr 2024**

As Project Manager at Culture Craft Hub, I organized cultural and artistic workshops led by talented student artists, designed a platform to showcase their work, published blog articles on cultural traditions and art trends, and provided event updates. I used feedback to refine events for high engagement and memorable experiences while documenting all processes, reflections, and planning in a comprehensive logbook.

## SKILLS

- Time Management
- Adaptability
- Creative Problem Solving
- Market Research & Analysis
- Teamwork & Collaboration
- Presentation Skills
- UX Design
- Project Management
- Communication

## INTERESTS

- Cooking
- Design Trends
- Data Analysis
- Design for Social Impact
- Drawing & Painting
- Sustainable Development

## LANGUAGES

- English– Native
- French– Native
